Covid Certificate reading and validation

Devices for access control of customers, visitors and employees in places where covid certificate is required

www.egreenpass.it

eGreenPass P

Automatic Covid Certificate validation including printer

Device for reading and validating Covid Certificate for access control of customers, visitors and employees in places where certification is required. Enables multiple pass control without storing sensitive data.

It includes an **integrated printer**, WiFi / LAN connection with SIM slot; it can be placed on the floor / desk and is available on request with its own support stand. It uses a 2 MP **optical camera** with software QRCode recognition. It can have, on request, **relay output** for light control and opening/locking of doors and turnstiles.

- ▶ **Thermal printer** integrated in the device with the possibility of printing out the validations made for control reports
- ▶ Generates **immediate notification** of validation with sound, light, screen and print indicator
- ▶ **Light control** for Covid Certificate printed on paper and **laminated**
- ▶ **E-mail notification** to the company Manager for negative results and daily summary of checks completed

FAST AND EFFICIENT

It speeds up the flow of people with automatic control and validation of the Covid Certificate, avoiding the formation of crowds. Avoids direct contact with the customer/user.

The user can read the QR CODE directly from the screen of his smartphone or by printing it on paper.

UPDATES INCLUDED GUARANTEED

It also includes in the purchase cost software updates for technical and/or regulatory changes or new official publications.

GDPR COMPLIANT

Fully compliant with the General Data Protection Regulation GDPR: no data storage or transmission; display of only the data required in compliance with the regulations.

Technical specifications

Operating System

Android 8

Processor

Quad-Core 1.1 GHZ

Memory

1GB DDR, 8GB eMMC

Display

5-inch, 1280 * 720

Printer

Paper 57mm * 40mm

Connection

Ethernet / Wi-fi /
Bluetooth / Sim Card

Connection ports

2 USB Host, 1 micro USB

Power Supply

9V / 2.5A

Battery

7.4V/2500mAh e Li-ion
Maximum autonomy 4 hours

Relay Output

1 or 2 channels timed relay
output

Operating Temperature

- 5° C / 45° C

Certification

CE

Automatic Covid Certificate Validation

European Covid Certificate QR Code reader device with modern and elegant design, ideal for receptions and lobbies in offices, hotels, restaurants, gyms, cinemas and museums. It allows automatic control of multiple passages without any data storage.

Equipped with an **advanced 5 MP optical camera with software recognition autofocus**; it can be placed on a **floor/desk** and is available on request with its own **support stand**. It is designed for indoor use only and it can have, on request, a relay output for light control and opening/locking of doors and turnstiles.

- ▶ **Modern and distinctive design** with a clear view screen
- ▶ **Reduces the investment** of staff needed to control access and validate the Covid Certificate
- ▶ Generates **immediate notification** of validation with sound, light, on-screen evidence
- ▶ **E-mail notification** to the company Manager for negative results and daily summary of checks completed

FAST AND EFFICIENT

It speeds up the flow of people with automatic control and validation of the Covid Certificate, avoiding the formation of crowds. Avoids direct contact with the customer/user.

The user can read the QR CODE directly from the screen of his smartphone or by printing it on paper.

UPDATES INCLUDED GUARANTEED

It also includes in the purchase cost software updates for technical and/or regulatory changes or new official publications.

GDPR COMPLIANT

Fully compliant with the General Data Protection Regulation GDPR: no data storage or transmission; display of only the data required in compliance with the regulations.

Technical specifications

Operating System	Android 8
Processor	Quad core cortex A17
Memory	2 GB RAM
Display	8" Touch Screen Resolution 1200 x 800
Camera	5.0M autofocus
Connection	Ethernet, WiFi, Bluetooth
Installation Method	Desk, Floor lamp
Device Size	13,2 x 21,18 cm
Power Supply	12V /1.5A
Relay Output	1 or 2 channels timed relay output

Professional
QRCode reader for
automatic
validation of Covid
certificates, with
turnstile control,
stand alone and
outdoor

European Covid Certificate QR Code reading and validation device for automatic access control of customers, visitors and employees in places where certification is required.

Designed to avoid crowds and speed up the flow of people entering.

Equipped with a **professional hardware QRCode reader** for excellent reliability and scanning speed, it has a relay control for opening turnstiles and gates; it can also be positioned **outdoors** (-10°C / 60°C), on walls, turnstiles or support stand.

FAST AND EFFICIENT

It speeds up the flow of people with automatic control and validation of the Covid Certificate, avoiding the formation of crowds. Avoids direct contact with the customer/user.

UPDATES INCLUDED GUARANTEED

It also includes in the purchase cost software updates for technical and/or regulatory changes or new official publications.

GDPR COMPLIANT

Fully compliant with the General Data Protection Regulation GDPR: no data storage or transmission; display of only the data required in compliance with the regulations.

Possibility of **control by browser system** with visibility of negative results for operator intervention (possible with treatment authorisation)

Reduces the investment of staff needed to control access and validate the Covid Certificate

Generates **immediate notification** of validation with sound, light, on-screen evidence

Technical specifications

Operating System	Android 7.1
Display	8" Touch Screen - Resolution 1200 x 800
Camera	Dual Camera 200W (RGB Camera) (optional) Wide dynamic camera Aperture: 4 mm Focal Length: 0 - 2 m
Power Supply	DC12V ($\pm 10\%$)
Operating Temperature	-10°C / 60°C
Working Humidity	10% - 90%
Power Consumption	10W MAX
Installation Method	Wall mounted, Turnstile, Desktop and Floor lamp
Device Size	24,9x12,7 x 2,4 cm
Weight	1,68 Kg
CPU	4 Cores, 1.8 GHZ
Connection	Ethernet , Wi-Fi, Slot SIM 2-4 G (optional)
Interface	RS232 e RS485 - Support Wiegand 26/34 input/output - USB 2.0 RJ45
Relay Output	NC, NO and COM
Filling Light	LED (optional)
Protection Level	IP64 - certain dustproof and waterproof function
Card reader	IC card reader (NFC) (optional)

Time and attendance with professional QRCode scanner for automatic covid certificates validation and temperature control

Time and attendance device with automatic Covid Certificate validation, NFC badge reader and temperature control; integrated with the EcosAgile cloud Time Management system.

Equipped with **infrared thermal control** and hardware professional QRCode reader for high reliability and scanning speed, it has an **NFC badge reader** and relay control for turnstile and gate opening; it can be positioned **indoors or outdoors (16°C-40°C)** on walls, turnstiles or stand alone with a pedestal.

▶ **Time stamping via NFC technology** integrated with the Time & Attendance and Personnel clocking system

▶ **Professional QR Code reader** for the European covid certificate

▶ **Personnel body temperature measurement** with an accuracy of $\pm 0.3^{\circ}\text{C}$ and within a distance of 0.7 metres

▶ **Generates immediate notification** of validation with sound, light, on-screen evidence

FAST AND EFFICIENT

It speeds up the flow of people with automatic control and validation of the Covid Certificate, avoiding the formation of crowds. Avoids direct contact with the customer/user to protect their own health and that of their staff.

UPDATES INCLUDED GUARANTEED

It also includes in the purchase cost software updates for technical and/or regulatory changes or new official publications.

GDPR COMPLIANT
